

Ribble Tech Spec

Adam / Fiddle - stage right

1 x XLR for fiddle DI box
2 x XLR for Concertina mics with phantom power
1 x Mic on an adjustable stand

Pete / Guitar - stage left

1x XLR for guitar DI box
1 x DI box for drum pedal
1 x Mic on an adjustable stand

Monitoring - ideally we would each have our own monitor mix, with slightly less of each other's vocals, or we'll share 1 monitor with same mix as FOH

Also please could we have 2 stools (or chairs with no arms, or beer crates, or haybales)?

We don't have any amps or other backline. Our pedal boards have our own DI boxes on them, and all battery powered but access to a couple of electrical sockets would be handy just in case.

Thanks!

Adam & Pete
